“FY2014 was a landmark year for us as we celebrated our company's 40th Anniversary.”

LIM TEIK HIAN
Executive Chairman

Dear Shareholders,

On behalf of the Board of Directors, it gives me much pleasure to present the Annual Report of Emico Holdings Berhad, for the financial year ended 31 March 2014 (FY2014).

FY2014 was a landmark year for us as we celebrated our company's 40th Anniversary. In addition, we have fully redeemed our Redeemable Secured Loan Stock ('RSLs') on 29 November 2013. We are excited that we will be launching new projects in our Property Development Division and introducing new concept of bespoke trophies and products.

REVIEW OF RESULTS

The Group posted a turnover of RM69.3 million and profit before taxation of RM0.1 million for the financial year ended 31 March 2014 (FY2014) as compared to a turnover of RM77.6 million and loss before taxation of RM2.3 million for the financial year ended 31 March 2013 (FY2013). The slight contraction of 10.8% in turnover was mainly due to lower turnover from the property development division.

The Group has returned to profitability despite lower turnover for FY2014, mainly due to the followings:

- i) The improvement in the results of investment division which posted a lower loss before taxation of RM1.0 million for FY2014 as compared to RM1.8 million for FY2013. The better result was mainly due to the full redemption of RSLs on 29 November 2013.
- ii) The manufacturing and trading division have posted a turnover of RM55.6 million for FY2014 compared to RM52.7 million for FY2013, a marginal increase of 1.7%. Despite the higher operating cost, the division recorded a profit before taxation of RM0.9 million for FY2014 as compared to RM1.7 million for FY2013.
- iii) The improvement in the results of property development division which posted a profit before taxation of RM0.2 million for FY2014 as compared to a loss before taxation of RM2.3 million for FY2013.

DIVIDEND

The Board of Directors does not recommend any payment of dividend for the financial year ended 31 March 2014.

REVIEW OF OPERATIONS

Consumable Products

a. Manufacturing of Consumable Products

The export of trophy continued to grow in the European and USA market for FY2014. To-date, we have penetrated into more than 45 countries and the demand remain positive despite the global economic slowdown. The turnover from the domestic market is maintained despite of competition from imported trophies and related products from China.

The contract manufacturing business with our Swedish customers continued to grow steadily with the development of new products during the year.

In order to maintain our competitiveness, we have taken measures to improve productivity and cost cutting exercise to overcome the escalating manufacturing cost due to the implementation of minimum wages and high energy costs which indirectly affected the overall cost of materials and overheads.

b. Trading of Household Products

The trading of household products remain challenging in view of the slow economic recovery in Europe. The decline in turnover was mainly due to an internal reorganisation undertaken by one of our major customers in the United Kingdom, which resulted in reduced demand.

As demand from our trading partners in the Scandinavian region remained strong, we expect to work closely with them to introduce more product range to cater for their market needs.

Property Development

a. Bandar Mutiara, Sungai Petani and Taman Seri Pertam, Melaka

We have completed our Ametis Valley Phase 3 comprising 56 units of double storey terrace house in Bandar Mutiara Township, Sungai Petani, Kedah. In addition, we have concluded the final phase of Taman Seri Pertam, Melaka with the completion of 13 units 1-1/2 storey terrace house and 17 units single storey terrace house.

The property development division remained moderate in view of the tightening of credit by the banks and imposition of borrowing rules by Bank Negara Malaysia. Despite the challenges, we were still able to achieve our sales target due to encouraging response from house buyers.

b. Taman Simfoni, Langkawi

During the year, our subsidiary, PKB – Operasi Tembaga Sdn Bhd ('PKB-OT') has entered into joint venture agreements ('JVA') with Langkawi Cemerlang Resort Sdn Bhd ('LCR') and Simfoni Homes Sdn Bhd ('SH') respectively, to develop a sea-front residential project named Taman Simfoni located at Bandar Kuah, Langkawi, Kedah. The project which is expected to complete in Year 2020, consists of 81 units of double storey terrace house, 36 units of 3 storey semi-detached house, 17 units of 3 storey bungalow and 2 blocks of service apartment with 196 units. According to the terms of JVA, LCR and SH will undertake the full financing of the construction works. Upon the completion of the building with vacant possession, the completed units will be distributed in accordance to the JVA.

CORPORATE DEVELOPMENT

The final balance of Redeemable Secured Loan Stocks ('RSLs) amounting to RM9.8 million was fully redeemed on 29 November 2013. Following with the settlement of the RSLs, all the secured assets used as collateral have been fully discharged.

PROSPECTS

Consumable Products

a. Manufacturing of Consumable Products

The outlook ahead remains challenging and full of uncertainties in the global market situation. In Malaysia, costs in general are rising, whilst businesses are pressured to maintain their selling prices to avoid losing out to competitors from countries with lower production cost.

In order to sustain our competitiveness, we will continue to be proactive and innovative in our cost management and operational efficiency. In addition, products with high labour cost content will be outsourced to a competitive overseas vendor where the labour cost is much lower. We will concentrate to produce high value products in Malaysia.

We have started working with European designers to develop new and exciting range of products catering for both domestic and export markets.

We are also looking to explore major untapped markets in the Asia region. In April 2014, we have taken a significant step to enter into the China market by setting up our office cum showroom in Foshan, China to introduce our Emico range of products.

b. Trading of Household Products

The trading of household products remains challenging as it is largely dependent on the recovery of the European economy. Despite the uncertainties, we are confident to maintain our turnover by persistently strengthening our sourcing team to provide wider range of quality household products with competitive pricing to our customers. We will expand our sourcing areas to more countries such as Vietnam, Indonesia and Bangladesh. We will also look into acquiring new customers by participating in international trade fairs.

c. Property Development

The property market is expected to remain moderate due to the tightening measures taken by the banks. In addition, the escalating cost of energy have resulted in an overall increase in construction cost. In order to overcome the challenges, we will continue to take proactive measures to optimize our project management and cost.

We will be launching Ametis Valley Phase 4 in Bandar Mutiara comprising 71 units of double storey terrace house due to the strong response and demand from our previous Ametis Valley project.

Our joint venture partner, LCR has launched the first phase of Taman Simfoni, Langkawi comprising 81 units of double storey terrace house which has received favourable response from house buyers.

ACKNOWLEDGEMENT

I would like to express my sincere appreciation to my fellow board members for their contribution and support. I would also like to convey my gratitude to all of our dedicated suppliers who continue to support for the success of the Group. I also extend my gratitude to our customers, business partners, government agencies and authorities, and our shareholders for their continuous support and confidence in the Group.

On a personal note, my appreciation goes to our management and staff for their unwavering efforts, commitment and untiring contribution in bringing Emico Group to greater heights.

Lim Teik Hian
Executive Chairman

Emico had its beginning in 1973 when its founder members Lim Beng Huan and Loh Lay Choo started a partnership known as Syarikat Perniagaan Emico which was involved in the retail business for trophies, souvenirs and signboards. The partnership gradually expanded its activities to include the manufacturing of its retail products. In 1983, the partnership was converted into private limited company and acquired industrial land located

in Bayan Lepas Industrial Area to venture into full scale manufacturing. Pursuant to its listing exercise, a complete restructuring scheme was implemented by the Group in 1991 whereby the various private companies held by the founders were acquired and regrouped under Emico Holdings Berhad. On 6 April 1994, the company was successfully listed on Bursa Malaysia.

MESSAGE FROM FOUNDERS

A business does not last 40 years by standing still. In rapidly evolving business environment, a company has to reinvent itself, constantly striving to exceed customers' expectations, and most importantly winning the marketplace. This is our story.

As we reminisce about the past, we still find it hard to believe that it has been four timeless decades. It has been a challenging yet remarkable journey for us. In 1973, both of us started a partnership venturing into trophy and advertising business with an initial start-up capital of RM10,000. Today, we stand proud to see Emico has grown to become a leading company in trophies and awards, supplying to over 40 countries around the world. In addition, our business has expanded to include contract manufacturing, property development, trading and sourcing of furniture and home furnishing products.

We believe that customers are the fundamental roots to our business. We are proud to have built a strong customer network throughout the world. We are truly blessed that there are many loyal customers who are still with us from the beginning until today. We are able to achieve this close rapport as we have established mutual trust and confidence in each other. We sincerely thank all our valued customers for their invaluable support given to us.

A business cannot prosper without talented and dedicated employees. Without the hard work and concerted efforts of our employees, we will not be celebrating our 40th Anniversary today. We are truly privileged to have with us a pool of loyal employees, some of whom have served us for more than 3 decades. We are also thankful to our Board of Directors for overcoming challenges and most importantly to excel and bring Emico to greater heights.

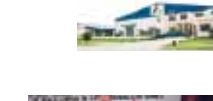

We wish to thank all our shareholders for the unwavering support and confidence in us. In addition, we wish to extend our heartfelt appreciation to all our business associates, bankers, suppliers and relevant authorities for their steadfast support and kind cooperation extended to Emico.

SUPPLY OF INFORMATION

The Board is able to access a complete information on a timely basis in form and of a quality necessary for the discharge of their duties and responsibilities. Where required, the Board has the authority to source for independent or expert advice and views from outside the Group.

ACCOUNTABILITY AND AUDIT

In presenting and reporting the annual reports and the quarterly announcement to shareholders, the Board has presented a balanced and understandable assessment of the Group's position and prospects. The Board acknowledges its duty and responsibility for maintaining a sound system of internal control to safeguard shareholders' investment and the Group's assets. It has established an Audit Committee comprising three (3) directors, the majority of whom are independent, to perform internal control covering financial, operational and compliance control and risk management necessary for the Group to achieve its objectives within acceptable risk profile. These controls can only provide reasonable but not absolute assurance against material misstatement or loss.

The Company out sourced its internal audit function to a professional consulting firm, which assists the Audit Committee in discharging its duties and responsibilities. The Internal Auditors' role is to report to Audit Committee on the improvement of organisational's management, accounting policies, controls, identification and managing significant risk. Through the audit committee, the Board has established transparent relationship with the Internal Auditors.

The Board has also established formal and transparent relationship with the external auditors. The appointment of the auditors is recommended by Audit Committee and subject to the approval of the shareholders in Annual General Meeting. The auditors remuneration is determined by the Board but is recommended by the Audit Committee.

REINFORCE INDEPENDENCE

The existing three (3) non-executive directors, are independent directors and they are able to express their opinions without any constraint. This strengthens the Board who benefits from the independent views expressed before any decisions are taken. The Nominating Committee had reviewed the performance of the independent directors and is satisfied that they have been able to discharge their responsibilities independently.

The independent non-executive directors consisting of Mr Ng Chee Kong and Mr Wong Sew Yun have served more than nine (9) years as independent directors respectively.

The Nominating Committee had assessed and is satisfied that Mr Ng Chee Kong and Mr Wong Sew Yun have satisfactorily demonstrated that they are independent from the management and free from any business dealings with the Group that could be perceived to interfere in their exercised of independent judgment. The Board took note of the recommendation of the MCGG but immediate compliance with the said recommendation posed as a disadvantage to the Company in terms of losing the experienced independent directors who have over the years contributed to the effectiveness of the Board as a whole. Nevertheless, Mr Ng Chee Kong and Mr Wong Sew Yun will be seeking shareholders' approval on their re-appointment as independent director at the forthcoming Annual General Meeting. In view thereof, the Board recommends and supports their re-appointment as independent non-executive directors of the Company at the forthcoming Twenty Second Annual General Meeting of the Company.

The Company's Chairman Mr Lim Teik Hian is an executive member of the Board and is not an independent director by virtue of his substantial interest in the Company. However, the Board believes that he is well placed to act on behalf of the shareholders in their best interest and it is not necessary to nominate an independent non-executive director as Chairman at this juncture. However, the Board will continuously review and evaluate the recommendation of the MCGG.

STATEMENT OF DIRECTORS' RESPONSIBILITY

The Directors are required by the Companies Act, 1965 ("the Act") to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Group and the Company at the end of the financial year and the profit or loss of the Group and the Company for the financial year. As required by the Act and the Listing Requirements of Bursa Malaysia Securities Berhad, the financial statements have been prepared in accordance with the applicable approved accounting standards in Malaysia and the provisions of the Act.

The Directors consider that in preparing the financial statements for the year ended March 2014 set out on pages 36 to 106, the Group has used the appropriate accounting policies, consistently applied and supported by reasonable and prudent judgments and estimates. The Directors have responsibility for ensuring that the Group and the Company keep accounting records which disclose with reasonable accuracy the financial position of the Group and the Company which enable them to ensure that the financial statements comply with the Act. The Directors have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

Pursuant to Paragraph 15.26(b) of the Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Securities”), the Board of Directors (“Board”) of Emico Holdings Berhad is pleased to provide the following Statement on the State of Risk Management and Internal Control (“Statement”) of Emico Holdings Berhad and its subsidiaries (“the Group”). This has been prepared in accordance with the Statement on Risk Management and Internal Control: Guidance for Directors of Public Listed Companies (“Internal Control Guidance”) issued by the Institute of Internal Auditors Malaysia and adopted by Bursa Securities.

BOARD RESPONSIBILITY

The Board is responsible for the adequacy and effectiveness of the Group’s risk management and internal control system. This system is designed to ensure the Group’s key areas of risks are managed within an acceptable level in order to increase the likelihood that the Group’s policies and business objectives will be achieved. Accordingly, it can only provide reasonable and not absolute assurance against material misstatement of management and financial information and records or against financial losses or fraud.

There is regular review of this process by the Board to ensure the effectiveness, adequacy and integrity of risk management and internal control system to safeguard the Group’s assets as guided by the Internal Control Guidance.

RISK MANAGEMENT FRAMEWORK

The Group has in place an ongoing process for identifying, evaluating and managing significant risks faced by the Group.

The Risk Management Committee (“RMC”) has been established to review the adequacy and effectiveness of risk management of the Group. Its main role is to review, on behalf of the Board, the system of risk management necessary to manage the significant risks faced by the Group and to present its findings to the Board. The RMC consists of 3 members comprising the Managing Director, Executive Director and is chaired by an Independent Director.

The Audit Committee is responsible to review the adequacy and effectiveness of the internal control systems of the Group. Its main role in risk management is to review, on behalf of the Board, the system of internal control necessary to manage the significant risks faced by the Group and to present its findings to the Board.

The Audit Committee is assisted by the internal auditors, whose role is to review the internal control systems.

Senior Management and heads of departments are delegated with the responsibility to manage identified risks within defined parameters. Meetings are held at least once quarterly to discuss key operational issues, business performance matters including risks and related mitigating responses, when necessary. Any significant risks will be communicated to the RMC members.

INTERNAL AUDIT FUNCTION

The Board acknowledges the importance of internal audit function and has engaged the services of an independent professional accounting and consulting firm as internal auditor to provide much of the assurance it requires regarding the effectiveness as well as the adequacy and integrity of the Group’s system of internal control.

The internal audit function provides assurance on the effectiveness of the risk management and internal control system through regular monitoring and reviewing of the internal control processes across the Group.

The annual internal audit plan is reviewed and approved by the Audit Committee. The scope of audit plan encompasses frequency and extent on the review of operational procedures of the Business Units throughout the Group.

Internal audit visits are undertaken to evaluate the adequacy and effectiveness of the risk management and internal control system, make recommendations for improvements to the system of internal control and ensure that the said recommendations are implemented expeditiously. Significant audit findings are tabled at the Audit Committee meeting for deliberation.

KEY ELEMENT ON INTERNAL CONTROL SYSTEM

Apart from risk management and internal audit, the Group has put in place the following key elements of internal control:

- Organisation structure with defined scopes of responsibility, clear lines of accountability, and appropriate levels of delegated authority;
- Documented internal policies and procedures for operational, financial and human resource management, which is subject to regular review and improvement;
- Comprehensive business planning and budgeting process where operating units prepare budgets for the coming year which are approved both at operating unit level and by the Board;
- Monthly monitoring of results against budget, with major variances being followed up and management action taken, where necessary;
- Quarterly Board and Audit Committee meetings; and
- Monthly visits to operating units by members of the Board and Senior Management.

CONCLUSION

The Board is of the view that the risk management and internal control systems are in place and satisfactory for the period under review. It has not resulted in any material losses, contingencies or uncertainties that would require disclosure in the Company's Annual Report. The Board has received assurance from the Managing Director and Executive Director that to the best of their knowledge that the Group's risk management and internal control systems are operating adequately and effectively, in all material aspects.

The Board recognises that the development of risk management and internal control system is an ongoing process. Therefore, the Board will continue to improve and enhance the systems of internal control and risk management.

REVIEW OF STATEMENT BY THE EXTERNAL AUDITORS

As required by Paragraph 15.23 of the Listing Requirements, the external auditors have reviewed this Statement. As set out in their terms of engagement, the said review procedures were performed in accordance with the Recommended Practice Guide 5 (Revised): Guidance For Auditors On Engagements To Report On The Statement On Risk Management and Internal Control Included In The Annual Report ("RPG 5"), issued by Malaysian Institute of Accountants.

RPG 5 does not require the external auditors to consider whether this Statement covers all risks and controls, or to form an opinion on the adequacy and effectiveness of the Group's risk management and internal control system. RPG 5 also does not require the external auditors to consider whether the processes described to deal with material internal control aspects of any significant problems disclosed in this Annual Report will, in fact, remedy the problems.

Based on their procedures performed, the external auditors have reported to the Board that nothing has come to their attention that causes them to believe that this Statement is not prepared in all material aspects, in accordance with the disclosures required by paragraphs 41 and 42 of the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers, nor is factually inaccurate.

This Statement was approved by the Board on 30 July 2014.

OTHER STATUTORY INFORMATION REGARDING THE GROUP AND THE COMPANY**(i) AS AT THE END OF THE FINANCIAL YEAR**

- (a) Before the statements of profit or loss and other comprehensive income and statements of financial position of the Group and of the Company were made out, the Directors took reasonable steps:
- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and have satisfied themselves that there are no known bad debts and that adequate provision had been made for doubtful debts; and
 - (ii) to ensure that any current assets other than debts, which were unlikely to realise their book values in the ordinary course of business had been written down to their estimated realisable values.
- (b) In the opinion of the Directors, the results of the operations of the Group and of the Company during the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature except for impairment loss on other receivables amounting to RM4,705,951 and reversal of impairment loss on trade and other receivables amounting to RM6,000,000 as disclosed in Note 15(g) to the financial statements.

(ii) FROM THE END OF THE FINANCIAL YEAR TO THE DATE OF THIS REPORT

- (c) The Directors are not aware of any circumstances:
- (i) which would necessitate the writing off of bad debts or render the amount of the provision for doubtful debts in the financial statements of the Group and of the Company inadequate to any material extent;
 - (ii) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; and
 - (iii) which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.
- (d) In the opinion of the Directors:
- (i) there has not arisen any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Group and of the Company for the financial year in which this report is made; and
 - (ii) no contingent or other liability has become enforceable, or is likely to become enforceable, within the period of twelve (12) months after the end of the financial year which would or may affect the ability of the Group and of the Company to meet their obligations as and when they fall due.

(iii) AS AT THE DATE OF THIS REPORT

- (e) There are no charges on the assets of the Group and of the Company which have arisen since the end of the financial year to secure the liabilities of any other person.
- (f) There are no contingent liabilities of the Group and of the Company which have arisen since the end of the financial year.
- (g) The Directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements which would render any amount stated in the financial statements of the Group and of the Company misleading.

EVENT SUBSEQUENT TO THE END OF THE REPORTING PERIOD

Event subsequent to the end of the reporting period is disclosed in Note 41 to the financial statements.

Report on the Financial Statements

We have audited the financial statements of Emico Holdings Berhad, which comprise statements of financial position as at 31 March 2014 of the Group and of the Company, and statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 42 to 105.

Directors' Responsibility for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements so as to give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Group and of the Company as of 31 March 2014 and of their financial performance and cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

- (a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.
- (b) We have considered the accounts and the auditors' report of a subsidiary of which we have not acted as auditors, which is indicated in Note 10 to the financial statements.
- (c) We are satisfied that the accounts of the subsidiaries that have been consolidated with the financial statements of the Company are in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group and we have received satisfactory information and explanations required by us for those purposes.
- (d) The audit reports on the accounts of the subsidiaries did not contain any qualification or any adverse comment made under Section 174(3) of the Act.

Other Reporting Responsibilities

The supplementary information set out in Note 42 to the financial statements is disclosed to meet the requirement of Bursa Malaysia Securities Berhad and is not part of the financial statements. The Directors are responsible for the preparation of the supplementary information in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants ('MIA Guidance') and the directive of Bursa Malaysia Securities Berhad. In our opinion, the supplementary information is prepared, in all material respects, in accordance with the MIA Guidance and the directive of Bursa Malaysia Securities Berhad.

Other Matters

This report is made solely to the members of the Company, as a body, in accordance with Section 174 of the Companies Act, 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

31 March 2014

1. CORPORATE INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia and is listed on the Main Market of Bursa Malaysia Securities Board.

The registered office of the Company is located at 51-21-A, Menara BHL Bank, Jalan Sultan Ahmad Shah, 10050 Penang.

The principal place of business of the Company is located at 18, Lebuhraya Kampung Jawa, 11900 Bayan Lepas, Penang.

The consolidated financial statements for the financial year ended 31 March 2014 comprise the Company and its subsidiaries and the interest on the Group in associates. These financial statements are presented in Ringgit Malaysia ('RM'), which is also the functional currency of the Company.

The financial statements were authorised for issue in accordance with a resolution by the Board of Directors on 30 July 2014.

2. PRINCIPAL ACTIVITIES

The Company is principally involved in investment holding. The principal activities of the subsidiaries are set out in Note 10 to the financial statements. There have been no significant changes in the nature of the activities during the financial year.

3. BASIS OF PREPARATION

The financial statements of the Group and of the Company set out on pages 42 to 105 have been prepared in accordance with Malaysian Financial Reporting Standards ('MFRSs'), International Financial Reporting Standards ('IFRSs') and the provisions of the Companies Act, 1965 in Malaysia. However, Note 42 to the financial statements set out on page 106 has been prepared in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants ('MIA Guidance') and the directive of Bursa Malaysia Securities Berhad.

4. SIGNIFICANT ACCOUNTING POLICIES

4.1 Basis of accounting

The financial statements of the Group and of the Company have been prepared under the historical cost convention except as otherwise stated in the financial statements.

The preparation of these financial statements in conformity with MFRSs requires the Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and disclosure of contingent assets and contingent liabilities. In addition, the Directors are also required to exercise their judgement in the process of applying the accounting policies. The areas involving such judgements, estimates and assumptions are disclosed in Note 6 to the financial statements. Although these estimates and assumptions are based on the Directors' best knowledge of events and actions, actual results could differ from those estimates.

31 March 2014

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

4.2 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and all its subsidiaries. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- (a) Power over the investee;
- (b) Exposure, or rights, to variable returns from its involvement with the investee; and
- (c) The ability to use its power over the investee to affect its returns.

If the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) The contractual arrangement with the other vote holders of the investee;
- (b) Rights arising from other contractual agreements; and
- (c) The voting rights of the Group and potential voting rights.

Intragroup balances, transactions, income and expenses are eliminated on consolidation. Unrealised gains arising from transactions with associates are eliminated against the investment to the extent of the interest of the Group in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no impairment.

The financial statements of the subsidiaries are prepared for the same reporting period as that of the Company, using consistent accounting policies. Where necessary, accounting policies of subsidiaries are changed to ensure consistency with the policies adopted by the other entities in the Group.

Non-controlling interests represent equity in subsidiaries that are not attributable, directly or indirectly, to owners of the parent, and is presented separately in the consolidated statement of profit or loss and other comprehensive income and within equity in the consolidated statement of financial position, separately from equity attributable to owners of the Company. Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Subsidiaries are consolidated from the date on which control is transferred to the Group up to the effective date on which control ceases, as appropriate. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the financial year are included in the statement of profit or loss and other comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Changes in the Company owners' ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of consideration paid or received is recognised directly in equity and attributed to owners of the parent.

If the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between:

- (i) The aggregate of the fair value of the consideration received and the fair value of any retained interest; and
- (ii) The previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests.

31 March 2014

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

4.2 Basis of consolidation (Cont'd)

Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for (i.e. reclassified to profit or loss or transferred directly to retained earnings) in the same manner as would be required if the relevant assets or liabilities were disposed of. The fair value of any investments retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under MFRS 139 *Financial Instruments: Recognition and Measurement* or, where applicable, the cost on initial recognition of an investment in associate or joint venture.

4.3 Business combinations

Business combinations are accounted for by applying the acquisition method of accounting.

Identifiable assets acquired, liabilities and contingent liabilities assumed in a business combination are measured at their fair value at the acquisition date, except that:

- (a) deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with MFRS 112 *Income Taxes* and MFRS 119 *Employee Benefits* respectively;
- (b) liabilities or equity instruments related to share-based payment transactions of the acquiree or the replacement by the Group of an acquiree's share-based payment transactions are measured in accordance with MFRS 2 *Share-based Payment* at the acquisition date; and
- (c) assets (or disposal groups) that are classified as held for sale in accordance with MFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that Standard.

Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the serviced are received.

Any contingent consideration payable is recognised at fair value at the acquisition date. Measurement period adjustments to contingent consideration are dealt with as follows:

- (a) If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity.
- (b) Subsequent changes to contingent consideration classified as an asset or liability that is a financial instrument within the scope of MFRS 139 are recognised either in profit or loss or in other comprehensive income in accordance with MFRS 139. All other subsequent changes are recognised in profit or loss.

In a business combination achieved in stages, previously held equity interests in the acquiree are re-measured to fair value at the acquisition date and any corresponding gain or loss is recognised in profit or loss.

Components of non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are initially measured at the present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets. All other components of non-controlling interests shall be measured at their acquisition-date fair values, unless another measurement basis is required by MFRSs. The choice of measurement basis is made on a combination-by-combination basis. Subsequent to initial recognition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity.

31 March 2014

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

4.3 Business combinations (Cont'd)

Any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interest in the acquiree (if any), and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities is recorded as goodwill in the statement of financial position. The accounting policy for goodwill is set out in Note 4.10 to the financial statements. In instances where the latter amount exceeds the former, the excess is recognised as a gain on bargain purchase in profit or loss on the acquisition date.

4.4 Property, plant and equipment and depreciation

All items of property, plant and equipment are initially measured at cost. Cost includes expenditure that is directly attributable to the acquisition of the asset.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when the cost is incurred and it is probable that the future economic benefits associated with the subsequent costs will flow to the Group and the cost of the asset can be measured reliably. The carrying amount of parts that are replaced is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred. Cost also comprises the initial estimate of dismantling and removing the asset and restoring the site on which it is located for which the Group is obligated to incur when the asset is acquired, if applicable.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the asset and which has different useful life, is depreciated separately.

After initial recognition, property, plant and equipment except for long term leasehold and buildings are stated at cost less any accumulated depreciation and any accumulated impairment losses. The leasehold land and buildings are revalued with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period. The surplus arising from such revaluations is credited to shareholders' equity as a revaluation reserve, net of deferred tax, if any, and any subsequent deficit is offset against such surplus to the extent of a previous increase for the same property. In all other cases, the deficit will be charged to profit or loss. For a revaluation increase subsequent to a revaluation deficit of the same asset, the surplus is recognised as income to the extent that it reverses the deficit previously recognised as an expense with the balance of increase credited to revaluation reserve.

Depreciation is calculated to write off the cost of the assets to their residual values on a straight line basis over their estimated useful lives. The principal depreciation period and rates are as follows:

Buildings	2% - 10%
Long term leasehold land	55 years
Plant and machinery	10% - 20%
Moulds	10% - 20%
Motor vehicles	10% - 33%
Office equipment, furniture and fittings	8% - 20%
Tools, implements and equipment	10% - 20%
Electrical installation and renovation	10% - 20%

At the end of each reporting period, the carrying amount of an item of property, plant and equipment is assessed for impairment when events or changes in circumstances indicate that its carrying amount may not be recoverable. A write down is made if the carrying amount exceeds the recoverable amount (see Note 4.10 to the financial statements on impairment of non-financial assets).

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

4.4 Property, plant and equipment and depreciation (Cont'd)

The residual values, useful lives and depreciation method are reviewed at the end of each reporting period to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment. If expectations differ from previous estimates, the changes are accounted for as a change in an accounting estimate.

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any, and the carrying amount is included in profit or loss and the revaluation surplus related to those assets, if any, is transferred directly to retained earnings.

4.5 Investment properties

Investment properties are properties which are held to earn rental yields or for capital appreciation or for both and are not occupied by the Group. Investment properties also include properties that are being constructed or developed for future use as investment properties. Investment properties are initially measured at cost, including transaction costs, less any accumulated depreciation and any accumulated impairment losses.

Subsequent costs are included in the carrying amount of the investment properties or recognised as a separate asset, as appropriate, only when the cost is incurred and it is probable that the future economic benefits associated with the asset would flow to the Group and the cost of the asset could be measured reliably. The carrying amount of parts that are replaced is derecognised. The costs of the day-to-day servicing of investment properties are recognised in profit or loss as incurred. Cost also comprises the initial estimate of dismantling and removing the asset and restoring the site on which it is located for which the Group is obligated to incur when the investment properties are acquired, if applicable.

After initial recognition, investment properties are stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated to write off the cost of the investment properties to their residual values on a straight line basis over their estimated useful lives. The principal depreciation period for the investments properties is fifty (50) years.

At the end of each reporting period, the carrying amount of an item of the investment properties are assessed for impairment when events or changes in circumstances indicate that its carrying amount may not be recoverable. A write down is made if the carrying amount exceeds the recoverable amount (see Note 4.10 to the financial statements on impairment of non-financial assets).

The residual values, useful lives and depreciation method are reviewed at the end of each reporting period to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the investment properties. If expectations differ from previous estimates, the changes are accounted for as a change in an accounting estimate.

Investment properties are derecognised when either they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The gains or losses arising from the retirement or disposal of investment property is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the asset and is recognised in profit or loss in the period of the retirement or disposal.

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

4.6 Lease and hire purchase

(a) Finance lease and hire purchase

Assets acquired under finance leases and hire purchase which transfer substantially all the risks and rewards of ownership to the Group are recognised initially at amounts equal to the fair value of the leased assets or, if lower, the present value of minimum hire purchase payments, each determined at the inception of the lease. The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease, if this is practicable to determine; if not, the Group's incremental borrowing rate is used. Any initial direct costs incurred by the Group are added to the amount recognised as an asset. The assets are capitalised as property, plant and equipment and the corresponding obligations are treated as liabilities. The property, plant and equipment capitalised are depreciated on the same basis as owned assets.

The minimum lease payments are apportioned between the finance charges and the reduction of the outstanding liability. The finance charges are recognised in profit or loss over the period of the hire purchase term so as to produce a constant periodic rate of interest on the remaining lease and hire purchase liabilities.

(b) Operating leases

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

Lease payments under operating leases are recognised as an expense on a straight-line basis over the lease term.

4.7 Investments

(a) Subsidiaries

A subsidiary is an entity in which the Group and the Company have power to control the financial and operating policies so as to obtain benefits from its activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group has such power over another entity.

An investment in subsidiary, which is eliminated on consolidation, is stated in the Company's separate financial statements at cost. Investments accounted for at cost shall be accounted for in accordance with MFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* when they are classified as held for sale (or included in a disposal group that is classified as held for sale) in accordance with MFRS 5.

When control of a subsidiary is lost as a result of a transaction, event or other circumstance, the Group would derecognise all assets, liabilities and non-controlling interests at their carrying amount and to recognise the fair value of the consideration received. Any retained interest in the former subsidiary is recognised at its fair value at the date control is lost. The resulting difference is recognised as a gain or loss in profit or loss.

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**4.7 Investments (Cont'd)****(b) Associates**

An associate is an entity over which the Group and the Company have significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

In the Company's separate financial statements, an investment in associate is stated at cost less accumulated impairment losses.

An investment in associate is accounted for in the consolidated financial statements using the equity method of accounting. The investment in associate in the consolidated statement of financial position is initially recognised at cost and adjusted thereafter for the post acquisition change in the Group's share of net assets of the investments.

The interest in the associate is the carrying amount of the investment in the associate under the equity method together with any long term interest that, in substance, form part of the Group's net investment in the associate.

The interest in the associate is the carrying amount of the investment in the associate under the equity method together with any long term interest that, in substance, form part of the Group's net investment in the associate.

The Group's share of the profit or loss of the associate during the financial year is included in the consolidated financial statements, after adjustments to align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases. Distributions received from the associate reduce the carrying amount of the investment. Adjustments to the carrying amount may also be necessary for changes in the Group's proportionate interest in the associate arising from changes in the associate's equity that have not been recognised in the associate's profit or loss. Such changes include those arising from the revaluation of property, plant and equipment and from foreign exchange translation differences. The Group's share of those changes is recognised directly in equity of the Group.

Unrealised gains and losses on transactions between the Group and the associate are eliminated to the extent of the Group's interest in the associate to the extent that there is no impairment.

When the Group's share of losses in the associate equals to or exceeds its interest in the associate, the carrying amount of that interest is reduced to nil and the Group does not recognise further losses unless it has incurred legal or constructive obligations or made payments on its behalf.

The most recent available financial statements of the associate are used by the Group in applying the equity method. When the end of the reporting periods of the financial statements are not coterminous, the share of results is arrived at using the latest audited financial statements for which the difference at the end of the reporting periods is no more than three (3) months. Adjustments are made for the effects of any significant transactions or events that occur between the intervening periods.

When the Group ceases to have significant influence over an associate, any retained interest in the former associate at the date when significant influence is lost is measured at fair value and this amount is regarded as the initial carrying amount of a financial asset. The difference between the fair value of any retained interest plus proceeds from the interest disposed of and the carrying amount of the investment at the date when equity method is discontinued is recognised in the profit or loss.

31 March 2014

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

4.7 Investments (Cont'd)

(b) Associates (Cont'd)

When the interest of the Group in an associate decreases but does not result in a loss of significant influence, any retained interest is not re-measured. Any gain or loss arising from the decrease in interest is recognised in profit or loss. Any gains or losses previously recognised in other comprehensive income are also reclassified proportionately to the profit or loss if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.

4.8 Goodwill

Goodwill recognised in a business combination is an asset at the acquisition date and is initially measured at cost being the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest (if any) in the entity over net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the Group's interest in the fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

After initial recognition, goodwill is measured at cost less accumulated impairment losses, if any. Goodwill is not amortised but instead tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying amount may be impaired. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

4.9 Inventories

(a) Consumable products

Inventories are stated at the lower of cost and net realisable value.

Cost is determined using the first-in, first-out formula. The cost of raw materials comprises all costs of purchase plus the cost of bringing the inventories to their present location and condition. The cost of work-in-progress and finished goods includes the cost of raw materials, direct labour, other direct cost and a proportion of production overheads based on normal operating capacity of the production facilities. The cost of completed properties held for sale comprises cost associated with the acquisition of land, direct costs and appropriate proportions of common costs.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

(b) Developed properties held for sale

Developed properties held for sale are stated at the lower of cost and net realisable value.

Cost consists of costs associated with the acquisition of land, direct costs, appropriate proportions of common costs attributable to developing the properties to completion and borrowing costs.

(c) Properties under development

Properties under development comprise costs associated with the acquisition of land and all costs that are directly attributable to development activities or that can be allocated on a reasonable basis to such activities. Borrowing costs are capitalised in accordance with the accounting policy on borrowing costs.

Cost of properties under development not recognised as an expense is recognised as an asset and is stated at the lower of cost and net realisable value.

31 March 2014

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**4.9 Inventories (Cont'd)**

(d) Land held for property development

Land held for property development is stated at the lower of cost and net realisable value.

Cost associated with the acquisition of land includes the purchase price of the land, professional fees, stamp duties, commissions, conversion fees and other relevant levies.

4.10 Impairment of non-financial assets

The carrying amount of assets, except for financial assets (excluding investments in subsidiaries and associates), inventories, deferred tax assets, investment properties and non-current assets (or disposal groups) held for sale, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment or more frequently if events or changes in circumstances indicate that the goodwill or intangible asset might be impaired.

The recoverable amount of an asset is estimated for an individual asset. Where it is not possible to estimate the recoverable amount of the individual asset, the impairment test is carried out on the cash generating unit ('CGU') to which the asset belongs. Goodwill acquired in a business combination is from the acquisition date, allocated to each of the Group's CGU or groups of CGU that are expected to benefit from the synergies of the combination giving rise to the goodwill irrespective of whether other assets or liabilities of the acquiree are assigned to those units or groups of units.

Goodwill acquired in a business combination shall be tested for impairment as part of the impairment testing of CGU to which it relates. The CGU to which goodwill is allocated shall represent the lowest level within the Group at which the goodwill is monitored for internal management purposes and not larger than an operating segment determined in accordance with MFRS 8 *Operating Segments*.

The recoverable amount of an asset or CGU is the higher of its fair value less cost to sell and its value in use.

In estimating value in use, the estimated future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted. An impairment loss is recognised in profit or loss when the carrying amount of the asset or the CGU, including the goodwill or intangible asset, exceeds the recoverable amount of the asset or the CGU. The total impairment loss is allocated, first, to reduce the carrying amount of any goodwill allocated to the CGU and then to the other assets of the CGU on a pro-rata basis of the carrying amount of each asset in the CGU.

The impairment loss is recognised in profit or loss immediately except for the impairment on a revalued asset where the impairment loss is recognised directly against the revaluation reserve to the extent of the surplus credited from the previous revaluation for the same asset with the excess of the impairment loss charged to profit or loss.

An impairment loss on goodwill is not reversed in subsequent periods. An impairment loss for other assets is reversed if, and only if, there has been a change in the estimates used to determine the assets' recoverable amount since the last impairment loss was recognised.

31 March 2014

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

4.10 Impairment of non-financial assets (Cont'd)

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Such reversals are recognised as income immediately in profit or loss except for the reversal of an impairment loss on a revalued asset where the reversal of the impairment loss is treated as a revaluation increase and credited to the revaluation reserve account of the same asset. However, to the extent that an impairment loss in the same revalued asset was previously recognised in profit or loss, a reversal of that impairment loss is also recognised in profit or loss.

4.11 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

A financial asset is any asset that is cash, an equity instrument of another enterprise, a contractual right to receive cash or another financial asset from another enterprise, or a contractual right to exchange financial assets or financial liabilities with another enterprise under conditions that are potentially favourable to the Group.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or a contractual obligation to exchange financial assets or financial liabilities with another enterprise under conditions that are potentially unfavourable to the Group.

Financial instruments are recognised on the statement of financial position when the Group has become a party to the contractual provisions of the instrument. At initial recognition, a financial instrument is recognised at fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issuance of the financial instrument.

An embedded derivative is separated from the host contract and accounted for as a derivative if, and only if the economic characteristics and risks of the embedded derivative is not closely related to the economic characteristics and risks of the host contract, a separate instrument with the same terms as the embedded derivative meets the definition of a derivative, and the hybrid instrument is not measured at fair value through profit or loss.

(a) Financial assets

A financial asset is classified into the following four (4) categories after initial recognition for the purpose of subsequent measurement:

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss comprise financial assets that are held for trading (i.e. financial assets acquired principally for the purpose of resale in the near term), derivatives (both, freestanding and embedded) and financial assets that were specifically designated into this classification upon initial recognition.

Subsequent to initial recognition, financial assets classified as fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in the fair value of financial assets classified as fair value through profit or loss are recognised in profit or loss. Net gains or losses on financial assets classified as fair value through profit or loss exclude foreign exchange gains and losses, interest and dividend income. Such income is recognised separately in profit or loss as components of other income or other operating losses.

However, derivatives that are linked to and must be settled by delivery of unquoted equity instruments that do not have a quoted market price in an active market are recognised at cost.

31 March 2014

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**4.11 Financial instruments (Cont'd)**

(a) Financial assets (Cont'd)

(ii) Held-to-maturity investments

Financial assets classified as held-to-maturity comprise non-derivative financial assets with fixed or determinable payments and fixed maturity that the Group has the positive intention and ability to hold to maturity.

Subsequent to initial recognition, financial assets classified as held-to-maturity are measured at amortised cost using the effective interest method. Gains or losses on financial assets classified as held-to-maturity are recognised in profit or loss when the financial assets are derecognised or impaired, and through the amortisation process.

(iii) Loans and receivables

Financial assets classified as loans and receivables comprise non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Subsequent to initial recognition, financial assets classified as loans and receivables are measured at amortised cost using the effective interest method. Gains or losses on financial assets classified as loans and receivables are recognised in profit or loss when the financial assets are derecognised or impaired, and through the amortisation process.

(iv) Available-for-sale financial assets

Financial assets classified as available-for-sale comprise non-derivative financial assets that are designated as available for sale or are not classified as loans and receivables, held-to-maturity investments or financial assets at fair value through profit or loss.

Subsequent to initial recognition, financial assets classified as available-for-sale are measured at fair value. Any gains or losses arising from changes in the fair value of financial assets classified as available-for-sale are recognised directly in other comprehensive income, except for impairment losses and foreign exchange gains and losses, until the financial asset is derecognised, at which time the cumulative gains or losses previously recognised in other comprehensive income are recognised in profit or loss. However, interest calculated using the effective interest method is recognised in profit or loss whilst dividends on available-for-sale equity instruments are recognised in profit or loss when the Group's right to receive payment is established.

Cash and cash equivalents include cash and bank balances, bank overdrafts, deposits and other short term, highly liquid investments with original maturities of three (3) months or less, which are readily convertible to cash and are subject to insignificant risk of changes in value.

A financial asset is derecognised when the contractual right to receive cash flows from the financial asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised directly in other comprehensive income shall be recognised in profit or loss.

A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or marketplace convention. A regular way purchase or sale of financial assets shall be recognised and derecognised, as applicable, using trade date accounting.

31 March 2014

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

4.11 Financial instruments (Cont'd)

(b) Financial liabilities

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. A financial liability is classified into the following two (2) categories after initial recognition for the purpose of subsequent measurement:

(i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss comprise financial liabilities that are held for trading, derivatives (both, freestanding and embedded) and financial liabilities that were specifically designated into this classification upon initial recognition.

Subsequent to initial recognition, financial liabilities classified as fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in the fair value of financial liabilities classified as fair value through profit or loss are recognised in profit or loss. Net gains or losses on financial liabilities classified as fair value through profit or loss exclude foreign exchange gains and losses, interest and dividend income. Such income is recognised separately in profit or loss as components of other income or other operating losses.

(ii) Other financial liabilities

Financial liabilities classified as other financial liabilities comprise non-derivative financial liabilities that are neither held for trading nor initially designated as at fair value through profit or loss.

Subsequent to initial recognition, other financial liabilities are measured at amortised cost using the effective interest method. Gains or losses on other financial liabilities are recognised in profit or loss when the financial liabilities are derecognised and through the amortisation process.

A financial liability is derecognised when, and only when, it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expires. An exchange between an existing borrower and lender of debt instruments with substantially different terms are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

Any difference between the carrying amount of a financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Any financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

The Group designates corporate guarantees given to banks for credit facilities granted to subsidiaries as insurance contracts as defined in MFRS 4 *Insurance Contracts*. The Group recognises these insurance contracts as recognised insurance liabilities when there is a present obligation, legal or constructive, as a result of a past event, when it is probable that an outflow of resources embodying economic benefits would be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

At the end of every reporting period, the Group assesses whether its recognised insurance liabilities are adequate, using current estimates of future cash flows under its insurance contracts. If this assessment shows that the carrying amount of the insurance liabilities is inadequate, the entire deficiency shall be recognised in profit or loss.

Recognised insurance liabilities are only removed from the statement of financial position when, and only when, it is extinguished via a discharge, cancellation or expiration.

31 March 2014

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**4.11 Financial instruments (Cont'd)**

(c) Equity

An equity instrument is any contract that evidences a residual interest in the assets of the Group and the Company after deducting all of its liabilities. Ordinary shares are classified as equity instruments.

Ordinary shares are recorded at the nominal value and proceeds in excess of the nominal value of shares issued, if any, are accounted for as share premium. Both ordinary shares and share premium are classified as equity. Transaction costs of an equity transaction are accounted for as a deduction from equity, net of any related income tax benefit. Otherwise, they are charged to profit or loss.

Interim dividends to shareholders are recognised in equity in the period in which they are declared. Final dividends are recognised upon the approval of shareholders in a general meeting.

The Group measures a liability to distribute non-cash assets as a dividend to the owners of the Company at the fair value of the assets to be distributed. The carrying amount of the dividend is remeasured at the end of each reporting period and at the settlement date, with any changes recognised directly in equity as adjustments to the amount of the distribution. On settlement of the transaction, the Group recognises the difference, if any, between the carrying amount of the assets distributed and the carrying amount of the liability in profit or loss.

When the Group repurchases its own shares, the shares repurchased would be accounted for using the treasury stock method.

Where the treasury stock method is applied, the shares repurchased and held as treasury shares shall be measured and carried at the cost of repurchase on initial recognition and subsequently. It shall not be revalued for subsequent changes in the fair value or market price of the shares.

The carrying amount of the treasury shares shall be offset against equity in the statement of financial position. To the extent that the carrying amount of the treasury shares exceeds the share premium account, it shall be considered as a reduction of any other reserves as may be permitted by the Main Market Listing Requirements.

No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the own equity instruments of the Company. If such shares are issued by resale, any difference between the sales consideration and the carrying amount is shown as a movement in equity.

4.12 Impairment of financial assets

The Group assesses whether there is any objective evidence that a financial asset is impaired at the end of each reporting period.

(a) Held-to-maturity investments and loans and receivables

The Group collectively considers factors such as the probability of bankruptcy or significant financial difficulties of the receivable, and default or significant delay in payments by the receivable, to determine whether there is objective evidence that an impairment loss on held-to-maturity investments and loans and receivables has occurred. Other objective evidence of impairment include historical collection rates determined on an individual basis and observable changes in national or local economic conditions that are directly correlated with the historical default rates of receivables.

If any such objective evidence exists, the amount of impairment loss is measured as the difference between the financial asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The impairment loss is recognised in profit or loss.

31 March 2014

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

4.12 Impairment of financial assets (Cont'd)

(a) Held-to-maturity investments and loans and receivables (Cont'd)

The carrying amount of held-to-maturity investments is directly reduced by the impairment loss whilst the carrying amount of loans and receivables are reduced through the use of an allowance account.

If in a subsequent period, the amount of the impairment loss decreases and it objectively relates to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of impairment reversed is recognised in profit or loss.

(b) Available-for-sale financial assets

The Group collectively considers factors such as significant or prolonged decline in fair value below cost, significant financial difficulties of the issuer or obligor, and the disappearance of an active trading market as objective evidence that available-for-sale financial assets are impaired.

If any such objective evidence exists, an amount comprising the difference between the financial asset's cost (net of any principal payment and amortisation) and current fair value, less any impairment loss previously recognised in profit or loss, is transferred from equity to profit or loss.

Impairment losses in respect of unquoted equity instrument that is carried at cost is recognised in profit or loss and is measured as the difference between the financial asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

Impairment losses on available-for-sale equity investments are not reversed in profit or loss in subsequent periods. Instead, any increase in the fair value subsequent to the impairment loss is recognised in other comprehensive income.

Impairment losses on available-for-sale debt investments are subsequently reversed to profit or loss if the increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss in profit or loss.

4.13 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset is capitalised as part of the cost of the asset until when substantially all the activities necessary to prepare the asset for its intended use or sale are complete, after which such expense is charged to profit or loss. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. Capitalisation of borrowing cost is suspended during extended periods in which active development is interrupted.

The amount of borrowing costs eligible for capitalisation is the actual borrowing costs incurred on the borrowing during the period less any investment income on the temporary investment of the borrowing.

All other borrowing costs are recognised to profit or loss in the period in which they are incurred.

31 March 2014

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**4.14 Provisions**

Provisions are recognised when there is a present obligation, legal or constructive, as a result of a past event, and when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects a provision to be reimbursed (for example, under an insurance contract), the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

If the effect of the time value of money is material, the amount of a provision will be discounted to its present value at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision will be reversed.

Provisions are not recognised for future operating losses. If the Group has a contract that is onerous, the present obligation under the contract shall be recognised and measured as a provision.

4.15 Income taxes

Income taxes include all taxes on taxable profit. Income taxes also include other taxes and real property gains taxes payable on the disposal of properties.

Taxes in the statement of profit or loss and other comprehensive income comprise current tax and deferred tax.

(a) Current tax

Current tax expenses are determined according to the tax laws of the jurisdiction in which the Group operates and include all taxes based upon the taxable profits and real property gains taxes payable on disposal of properties.

(b) Deferred tax

Deferred tax is recognised in full using the liability method on temporary differences arising between the carrying amount of an asset or liability in the statement of financial position and its tax base.

Deferred tax is recognised for all temporary differences, unless the deferred tax arises from goodwill or the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of transaction, affects neither accounting profit nor taxable profit.

A deferred tax asset, is recognised only to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. The carrying amount of a deferred tax asset is reviewed at the end of each reporting period. If it is no longer probable that sufficient taxable profits will be available to allow the benefit of part or all of that deferred tax asset to be utilised, the carrying amount of the deferred tax asset will be reduced accordingly. When it becomes probable that sufficient taxable profits will be available, such reductions will be reversed to the extent of the taxable profits.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred income taxes relate to the same taxation authority on either:

- (i) the same taxable entity; or

31 March 2014

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

4.15 Income taxes (Cont'd)

- (ii) different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Deferred tax would be recognised as income or expense and included in profit or loss for the period unless the tax relates to items that are credited or charged, in the same or a different period, directly to equity, in which case the deferred tax will be charged or credited directly to equity.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

4.16 Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognise a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group. The Group does not recognise a contingent asset but discloses its existence where the inflows of economic benefits are probable, but not virtually certain.

In the acquisition of subsidiaries by the Group under business combinations, contingent liabilities assumed are measured initially at their fair value at the acquisition date.

4.17 Employee benefits

- (a) Short term employee benefits

Wages, salaries, social security contributions, paid annual leave, paid sick leave, bonuses and non-monetary benefits are recognised as an expense in the financial year when employees have rendered their services to the Group.

Short term accumulating compensated absences such as paid annual leave are recognised as an expense when employees render services that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur and they lapse if the current period's entitlement is not used in full and do not entitle employees to a cash payment for unused entitlement on leaving the Group

Bonuses are recognised as an expense when there is a present, legal or constructive obligation to make such payments, as a result of past events and when a reliable estimate can be made of the amount of the obligation.

- (b) Defined contribution plans

The Company and its subsidiaries make contributions to a statutory provident fund. The contributions are recognised as a liability after deducting any contribution already paid and as an expense in the period in which the employees render their services.

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**4.18 Foreign currencies****(a) Functional and presentation currency**

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Ringgit Malaysia, which is the Company's functional and presentation currency.

(b) Foreign currency translations and balances

Transactions in foreign currencies are converted into functional currency at rates of exchange ruling at the transaction dates. Monetary assets and liabilities in foreign currencies at the end of the reporting period are translated into functional currency at rates of exchange ruling at that date. All exchange differences arising from the settlement of foreign currency transactions and from the translation of foreign currency monetary assets and liabilities are included in profit or loss in the period in which they arise. Non-monetary items initially denominated in foreign currencies, which are carried at historical cost are translated using the historical rate as of the date of acquisition, and non-monetary items which are carried at fair value are translated using the exchange rate that existed when the values were determined for presentation currency purposes.

4.19 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable net of discounts and rebates.

Revenue is recognised to the extent that it is probable that the economic benefits associated with the transaction will flow to the Group, and the amount of revenue and the cost incurred or to be incurred in respect of the transaction can be reliably measured and specific recognition criteria have been met for each of the Group's activities as follows:

(a) Sale of goods

Revenue from sale of goods is recognised when the significant risks and rewards of ownership of the goods have been transferred to the customer and where the Group retains no continuing managerial involvement over the goods, which coincides with the delivery of goods and acceptance by customers.

(b) Property development

Revenue from property development is measured at the fair value of the consideration receivable and is recognised, in the profit or loss when significant risks and rewards of ownership have been transferred to the buyer based on the following key considerations:

- (i) the risks and rewards of the properties under development passes to the buyer on delivery in its entirety at a single time on vacant possession and not continuously as construction progresses;
- (ii) the Group maintain control over the properties under development during the construction period, i.e. the Group retain the obligation to construct the property in accordance with terms of the Sale and Purchase Agreement and correspondingly, construction risks is retained with the Group;
- (iii) the Sale and Purchase Agreement does not give the right to the buyer to take over the work in progress during construction;
- (iv) the buyers have limited ability to influence the design of the property; and
- (v) title passes to buyers on vacant possession.

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

4.19 Revenue recognition (Cont'd)

- (c) Services
Revenue in respect of the rendering of services is recognised when the stage of completion at the end of the reporting period and the cost incurred can be reliably measured. The stage of completion is determined by the services performed to date as a percentage of total services to be performed.
- (d) Management services
Management services is recognised on an accrual basis.
- (e) Interest income
Interest income is recognised as it accrues, using the effective interest method.
- (f) Rental income
Rental income is accounted for on a straight line basis over the lease term of an ongoing lease.

4.20 Operating segments

Operating segments are defined as components of the Group that:

- (a) engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group);
- (b) whose operating results are regularly reviewed by the Group's chief operating decision maker (i.e. the Managing Director) in making decisions about resources to be allocated to the segment and assessing its performance; and
- (c) for which discrete financial information is available.

An operating segment may engage in business activities for which it has yet to earn revenues.

The Group reports separately information about each operating segment that meets any of the following quantitative thresholds:

- (a) Its reported revenue, including both sales to external customers and inter segment sales or transfers, is ten (10) per cent or more of the combined revenue, internal and external, of all operating segments.
- (b) The absolute amount of its reported profit or loss is ten (10) per cent or more of the greater, in absolute amount of:
 - (i) the combined reported profit of all operating segments that did not report a loss; and
 - (ii) the combined reported loss of all operating segments that reported a loss.
- (c) Its assets are ten (10) per cent or more of the combined assets of all operating segments.

Operating segments that do not meet any of the quantitative thresholds may be considered reportable, and separately disclosed, if the management believes that information about the segment would be useful to users of the financial statements.

Total external revenue reported by operating segments shall constitute at least seventy five (75) percent of the Group's revenue. Operating segments identified as reportable segments in the current financial year in accordance with the quantitative thresholds would result in a restatement of prior period segment data for comparative purposes.

4. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**4.21 Earnings per share**

(a) Basic

Basic earnings per ordinary share for the financial year is calculated by dividing the profit for the financial year attributable to equity holders of the parent by the weighted average number of ordinary shares outstanding during the financial year.

(b) Diluted

Diluted earnings per ordinary share for the financial year is calculated by dividing the profit for the financial year attributable to equity holders of the parent by the weighted average number of ordinary shares outstanding during the financial year adjusted for the effects of dilutive potential ordinary shares.

4.22 Fair value measurements

The fair value of an asset or a liability except for share-based payment and lease transactions is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement method assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

The Group measures the fair value of an asset or a liability by taking into account the characteristics of the asset or liability if market participants would take these characteristics into account when pricing the asset or liability. The Group has considered the following characteristics when determining fair value:

- (a) The condition and location of the asset; and
- (b) Restrictions, if any, on the sale or use of the asset.

The fair value measurement for a non-financial asset takes into account the ability of the market participant to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The fair value of a financial or non-financial liability or an entity's own equity instrument assumes that:

- (a) A liability would remain outstanding and the market participant transferee would be required to fulfil the obligation. The liability would not be settled with the counterparty or otherwise extinguished on the measurement date; and
- (b) An entity's own equity instrument would remain outstanding and the market participant transferee would take on the rights and responsibilities associated with the instrument. The instrument would not be cancelled or otherwise extinguished on the measurement date.

5. ADOPTION OF NEW MFRSs AND AMENDMENT TO MFRSs

5.1 New MFRSs adopted during the financial year

The Group and Company adopted the following Standards of the MFRS Framework that were issued by the Malaysian Accounting Standards Board (“MASB”) during the financial year.

Title	Effective Date
Amendments to MFRS 101 <i>Presentation of Items of Other Comprehensive Income</i>	1 July 2012
MFRS 10 <i>Consolidated Financial Statements</i>	1 January 2013
MFRS 11 <i>Joint Arrangements</i>	1 January 2013
MFRS 12 <i>Disclosure of Interests in Other Entities</i>	1 January 2013
MFRS 13 <i>Fair Value Measurement</i>	1 January 2013
MFRS 119 <i>Employee Benefits (2011)</i>	1 January 2013
MFRS 127 <i>Separate Financial Statements</i>	1 January 2013
MFRS 128 <i>Investments in Associates and Joint Ventures</i>	1 January 2013
Amendments to MFRS 1 <i>Government Loans</i>	1 January 2013
Amendments to MFRS 7 <i>Disclosures - Offsetting Financial Assets and Financial Liabilities</i>	1 January 2013
Amendments to MFRSs <i>Annual Improvements 2009 - 2011 Cycle</i>	1 January 2013
Amendments to MFRS 10, MFRS 11 and MFRS 12 <i>Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other Entities: Transition Guidance</i>	1 January 2013
IC Interpretation 20 <i>Stripping Costs in the Production Phase of a Surface Mine</i>	1 January 2013

There is no material effect upon the adoption of the above standards during the financial year other than:

- (a) Amendments to MFRS 101 is mandatory for annual periods beginning on or after 1 July 2012.

These Amendments require that items other comprehensive income must be grouped into two sections:

- (i) Those that are or may be reclassified into profit or loss; and
- (ii) Those that will not be reclassified into profit or loss.

The Group has changed the presentation of the statements of profit or loss and other comprehensive income according to these Amendments.

- (b) MFRS 13 is mandatory for annual periods beginning on or after 1 January 2013.

This Standard is now the sole MFRS containing the framework for determining the measurement of fair value and the disclosure of information relating to fair value measurement, when fair value measurements and/or disclosures are required or permitted by other MFRSs. As a result, the guidance and requirements relating to fair value measurement that were previously located in other MFRSs have now been relocated to MFRS 13.

Whilst there have been some rewording of the previous guidance on MFRS 13, there are very few changes to the previous fair value measurement requirements. Instead, MFRS 13 is intended to clarify the measurement objectives, harmonise the disclosure requirements, and improve consistency in the application of fair value measurement.

MFRS 13 did not materially impact any fair value measurement of the assets or liabilities of the Group. It has only a presentation and disclosure impact and therefore, has no effect on the financial position or performance of the Group.

- (c) MFRS 127 is mandatory effective for annual periods beginning on or after 1 January 2013.

This revised Standard contains accounting requirements for investments in subsidiaries, joint ventures and associates in the separate financial statements of the investor. An investor is required to account for those investments either at cost or in accordance with MFRS 139 or MFRS 9 in the separate financial statements.

There is no material impact upon the adoption of this Standard during the financial year.

5. ADOPTION OF NEW MFRSs AND AMENDMENT TO MFRSs (Cont'd)

5.1 New MFRSs adopted during the financial year (Cont'd)

- (d) MFRS 128 is mandatory for annual periods beginning on or after 1 January 2013. This revised Standard defines the equity method of accounting whereby the investment in an associate or joint venture is initially measured at cost and adjusted thereafter for the post-acquisition change in the investor's share of net assets of the investee. The profit or loss of the investor includes its share of the profit or loss of the investee and the other comprehensive income of the investor includes its share of other comprehensive income of the investee.

There is no material impact upon the adoption of this Standard during the financial year.

5.2 New MFRSs that have been issued, but only effective for annual periods beginning on or after 1 January 2014

The following are Standards of the MFRS Framework that have been issued by the Malaysian Accounting Standards Board ("MASB") but have not been early adopted by the Group and the Company.

Title	Effective Date
Amendments to MFRS 10 <i>Consolidated Financial Statements: Investment Entities</i>	1 January 2014
Amendments to MFRS 12 <i>Disclosure of Interest in Other Entities: Investment Entities</i>	1 January 2014
Amendments to MFRS 127 <i>Separate Financial Statements (2011): Investment Entities</i>	1 January 2014
Amendments to MFRS 132 <i>Offsetting Financial Assets and Financial Liabilities</i>	1 January 2014
Amendments to MFRS 136 <i>Recoverable Amount Disclosures for Non-Financial Assets</i>	1 January 2014
Amendments to MFRS 139 <i>Novation of Derivatives and Continuation of Hedge Accounting</i>	1 January 2014
IC Interpretation 21 <i>Levies</i>	1 January 2014
Defined Benefit Plans: <i>Employee Contributions (Amendments to MFRS 119)</i>	1 July 2014
Amendments to MFRSs <i>Annual Improvements 2010 – 2012 Cycle</i>	1 July 2014
Amendments to MFRSs <i>Annual Improvements 2011 – 2013 Cycle</i>	1 July 2014
<i>Mandatory Effective Date of MFRS 9 and Transition Disclosures</i>	Deferred
<i>MFRS 9 Financial Instruments (2009)</i>	Deferred
<i>MFRS 9 Financial Instruments (2010)</i>	Deferred
<i>MFRS 9 Financial Instruments (Hedge Accounting and Amendments to MFRS 9, MFRS 7 and MFRS 139)</i>	Deferred

The Group is in the process of assessing the impact of implementing these Standards, since the effects would only be observable for future financial years.

6. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

6.1 Changes in estimates

Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Directors are of the opinion that there are no significant changes in estimates at the end of the reporting period.

6.2 Critical judgements made in applying accounting policies

The following are judgements made by management in the process of applying the accounting policies of the Group that have the most significant effect on the amounts recognised in the financial statements.

(a) Classification of leasehold land

The Group has assessed and classified land use rights of the Group as finance leases based on the extent to which risks and rewards incidental to ownership of the land resides with the Group arising from the lease term. Consequently, the Group has classified the unamortised upfront payment for land use rights as finance leases in accordance with MFRS 117 Leases.

(b) Disposal group classified as held for sale

Certain non-current assets and liabilities had been classified as disposal group held for sale as the management had committed to a plan to sell the assets and liabilities as at the end of the reporting period. Barring any unforeseen circumstances, the Group expects that the sale of the assets and liabilities to be completed within the next twelve (12) months.

(c) Contingent liabilities

The determination of treatment of contingent liabilities is based on management's view of the expected outcome of the contingencies for matters in the ordinary course of the business.

(d) Classification of non-current bank borrowings

Term loan agreements entered into by the Group include repayment on demand clauses at the discretion of financial institutions. The Group believes that in the absence of a default being committed by the Group, these financial institutions are not entitled to exercise their rights to demand for repayment. Accordingly, the carrying amount of the term loans have been classified between current and non-current liabilities based on their repayment period.

(e) Contingent liabilities on corporate guarantees

The Directors are of the view that the chances of the financial institutions to call upon the corporate guarantees are remote.

6.3 Key sources of estimation uncertainty

The following are key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) Impairment of goodwill on consolidation

The Group determines whether goodwill on consolidation is impaired at least on an annual basis. This requires an estimation of the value-in-use of the subsidiaries to which goodwill is allocated.

Further details are disclosed in Note 9 to the financial statements.

6. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (Cont'd)**6.3 Key sources of estimation uncertainty (Cont'd)****(b) Depreciation and useful lives of property, plant and equipment**

The Group estimates the useful lives of property, plant and equipment at the time the assets are acquired based on historical experience, the expected usage, wear and tear of the assets and technical obsolescence arising from changes in the market demands or service output of the assets. The estimated useful lives of property, plant and equipment are reviewed periodically and are updated if expectations differ from previous estimates due to changes in the factors mentioned above. Changes in these factors could impact the useful lives and the residual values of the assets; therefore future depreciation charges could be revised.

(c) Deferred tax assets

Deferred tax assets are recognised for all unused tax losses and unabsorbed capital allowances to the extent that it is probable that taxable profits would be available against which the losses and capital allowances could be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies

(d) Impairment of receivables

The Group makes impairment of receivables based on an assessment of the recoverability of receivables. Impairment is applied to receivables where events or changes in circumstances indicate that the carrying amounts may not be recoverable. Management specifically analyses historical bad debt, customer concentration, customer creditworthiness, current economic trends and changes in customer payment terms when making a judgement to evaluate the adequacy of impairment of receivables. Where expectations differ from the original estimates, the differences will impact the carrying amount of receivables.

(e) Write down for obsolete or slow moving inventories

The Group writes down its obsolete or slow moving inventories based on an assessment of their estimated net selling price. Inventories are written down when events or changes in circumstances indicate that the carrying amounts could not be recovered. Management specifically analyses sales trend and current economic trends when making this judgement to evaluate the adequacy of the write down for obsolete or slow moving inventories. Where expectations differ from the original estimates, the differences would impact the carrying amount of inventories.

(f) Fair value of borrowing

The fair values of borrowings are estimated by discounting future contractual cash flows at the current market interest rates available to the Group for similar financial instruments. It is assumed that the effective interest rates approximate the current market interest rates available to the Group based on its size and its business risk. Sensitivity analysis of the effects of interest rate risk has been disclosed in Note 40 to the financial statements.

(g) Properties under development**Budgeted costs and net realisable value**

The Company prepares estimates of budgeted costs and selling price for its property development projects based on the following key assumptions:

- (i) The property development costs have been projected based on prevailing cost of construction and such costs are reviewed on an on-going basis; and
- (ii) The selling price of properties under development has been projected based on prevailing market values of the location and type of properties under development.

Any revision to estimates above that could affect the net realisable value of the properties under development are recognised in the year in which the estimate is revised and in any future years affected.

31 March 2014

6. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (Cont'd)**6.3 Key sources of estimation uncertainty (Cont'd)****(h) Impairment of assets**

The Group determines whether an asset is impaired by evaluating the extent to which the recoverable amount of an asset is less than its carrying amount. This evaluation is subject to factors such as market performance, economic and political situation of the country.

Recoverable amount is measured at the higher of the fair value less cost to sell for that asset and its value in use. The value in use is the net present value of the projected future cash flows derived from that asset discounted at an appropriate discount rate. For such discounted cash flow method, it involves the use of estimated future results and a set of assumptions to reflect its income and cash flows. Judgement has also been used to determine the discount rate for cash flows and the future growth of the business.

(i) Impairment of investments in subsidiaries and amounts owing by subsidiaries

The Company reviews the investments in subsidiaries for impairment when there is an indication of impairment and assesses the impairment of receivables on the amounts owing by subsidiaries when the receivables are long outstanding.

The recoverable amounts of the investments in subsidiaries and amounts owing by subsidiaries are assessed by reference to the value in use of the respective subsidiaries.

The value in use is the net present value of the projected future cash flows derived from the business operations of the respective subsidiaries discounted at an appropriate discount rate. For such discounted cash flow method, it involves the use of estimated future results and a set of assumptions to reflect their income and cash flows. Judgement had also been used to determine the discount rate for the cash flows and the future growth of the businesses of the subsidiaries.

(j) Fair value measurement

The fair value measurement of the financial and non-financial assets and liabilities of the Group utilises market observable inputs and data as far as possible, where applicable. Inputs used in determining fair value measurements are categorised into different levels based on how observable the inputs used in the valuation technique utilised are:

- (i) Level 1: Quoted prices in active markets for identical items (unadjusted);
- (ii) Level 2: Observable direct or indirect inputs other than Level 1 inputs; and
- (iii) Level 3: Unobservable inputs (i.e. not derived from market data).

The classification of an item into the above levels is based on the lowest level of the inputs used in the fair value measurement of the item. Transfers of items between levels are recognised in the period they occur.

The Group engaged a professional valuer to perform a valuation with sufficient regularity on its leasehold land and building as disclosed in Note 7 to the financial statements.

	Group	
	2014 RM	2013 RM
Property development	551,552	551,552

Goodwill is tested for impairment on an annual basis by comparing the carrying amount with the recoverable amount of the CGUs based on value-in-use. Value-in-use is determined by discounting the future cash flows to be generated from the continuing use of the CGUs based on the following assumptions:

- (i) Cash flows are projected based on the management's most recent six (6) years business plan.
- (ii) Discount rates used for cash flows discounting purpose is the Group's weighted average cost of capital. The average discount rate applied for cash flow projection is 9.00%.
- (iii) Estimated number of units sold based on current market conditions and past performances.

Corporate guarantees extended to local banks for credit facilities granted to subsidiaries	8,904,424	3,034,439

The Directors are of the opinion that provisions are not required in respect of these matters, as it is not probable that a future sacrifice of economic benefits will be required or the amount is not capable of reliable measurement.

The Directors are of the view that the chances of the financial institutes to call upon the corporate guarantees are remote. Accordingly, the fair values of the above corporate guarantees given to the subsidiaries for banking facilities are negligible.

38. OPERATING SEGMENTS

Emico Holdings Berhad is principally involved in investment holding and its subsidiaries are principally engaged in manufacturing, trading of consumable products and property development.

Emico Holdings Berhad has arrived at three (3) reportable segments that are organised and managed separately according to the nature of products and services, specific expertise and technologies requirements, which requires different business and marketing strategies. The reportable segments are summarised as follows:

- (i) Consumable products - Manufacturing and trading of consumable products
- (ii) Property development - Development of land into residential and commercial building
- (iii) Investment holding

The accounting policies of operating segments are the same as those described in the summary of significant accounting policies.

The Group evaluates performance on the basis of profit or loss from operations before tax not including non-recurring gain/(losses), such as bargain purchase gain and goodwill on consolidation written off.

Inter-segment revenue is priced along the same lines as sales to external customers and is eliminated in the consolidated financial statements. These policies have been applied consistently throughout the current and previous financial year.

Segment assets exclude tax assets.

Segment liabilities exclude tax liabilities.

(b) Geographical information

The Group's manufacturing facilities and sales offices are mainly based in Malaysia.

In presenting information on the basis of geographical areas, segment revenue is based on the geographical location from which the sale transactions originated. Segment assets are based on the geographical location of the Group's assets. The non-current assets do not include financial instruments and deferred tax assets.

39. FINANCIAL INSTRUMENTS

(a) Capital management

The Group's objectives and policies of managing capital are to safeguard the Group's ability to continue in its operations as going concerns in order to provide fair returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain the optimal capital structure, the Group may, from time to time, adjust/vary the dividend payouts to shareholders, issue new shares, redeem debts or sell assets to reduce debts, where necessary.

For capital management purposes, the Group considers shareholders' equity and borrowings to be the key components in the Group capital structure. The Group monitors capital on the basis of gearing ratio. The Group includes within net debt, borrowings less deposits with a licensed bank and cash and bank balances. There were no changes in the Group's approach to capital management during the financial year. The debts-to-equity as at 31 March 2014 and 31 March 2013 were as follows:

	Note	Group	
		2014 RM	2013 RM

(c) Methods and assumptions used to estimate fair value

- (i) Financial instruments that are not carried at fair values and whose carrying amounts are reasonable approximation of fair values

The carrying amounts of financial assets and financial liabilities, such as trade and other receivables, trade and other payables and borrowings, are reasonable approximation of fair value, either due to their short term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the end of the reporting period.

The carrying amounts of the current portion of loans and borrowings are reasonable approximation of fair values due to the insignificant impact of discounting.

The fair value of these borrowings is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the end of the reporting period.

- (ii) Amounts owing by subsidiaries and fixed rate bank loans

The fair value of these financial instruments are estimated by discounting expected future cash flows at market incremental lending rate for similar types of lending, borrowing or leasing arrangements at the end of the reporting period.

* The Group and the Company provide corporate guarantees to the financial institutions for banking facilities granted to subsidiaries as disclosed in Note 29 to the financial statements. The fair value of such financial corporate guarantees is negligible as the probability of the Group defaulting on the financial facilities is remote.

39. FINANCIAL INSTRUMENTS (Cont'd)**(d) Fair value hierarchy (Cont'd)**

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Fair value of non-derivative financial liabilities, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the end of the reporting period. In respect of the borrowings, the market rate of interest is determined by reference to similar borrowing arrangements.

Level 3 fair value measurements are those derived from inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There were no transfers between Level 1, Level 2 and Level 3 fair value measurements during the financial years ended 31 March 2014 and 31 March 2013.

(e) The Group has established guidelines in respect to the measurement of fair values of financial instruments. The management regularly reviews significant unobservable inputs and valuation adjustments.**40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES**

The Group's financial risk management objective is to optimise value creation for shareholders whilst minimising the potential adverse impact arising from fluctuations in foreign currency exchange and the unpredictability of the financial markets.

The Group operates within an established risk management framework and clearly defined guidelines that are regularly reviewed by the Board of Directors and does not trade in derivative financial instruments. Financial risk management is carried out through risk review programmes, internal control systems, insurance programmes and adherence to the Group financial risk management policies.

The Group is exposed mainly to credit risk, liquidity and cash flow risk, interest rate risk and foreign currency risk. Information on the management of the related exposures is detailed below.

(i) Credit risk

Cash deposits and trade receivables may give rise to credit risk which requires the loss to be recognised if a counter party fails to perform as contracted. The counter parties are major international institutions and reputable multinational organisations. It is the Group's policy to monitor the financial standing of these counter parties on an ongoing basis to ensure that the Group is exposed to minimal credit risk.

The Group's primary exposure to credit risk arises through its trade receivables. The Group's trading terms with its customers are mainly on credit. The credit period generally range from one (1) month to three (3) months for major customers. Each customer has a maximum credit limit and the Group seeks to maintain control over its outstanding receivables via credit control to minimise credit risk. Overdue balances are reviewed regularly by senior management.

Exposure to credit risk

At the end of the reporting period, the Group's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statements of financial position.

31 March 2014

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)
(i) Credit risk (Cont'd)
Credit risk concentration profile

The Group determines concentration of credit risk by monitoring the country profiles of its trade receivables on an ongoing basis. The credit risk concentration profile of the Group's trade receivables at the end of the reporting period is as follows:

	2014		2013	
	RM	% of total	RM	% of total
By country:				
Malaysia	4,308,455	46%	4,890,201	50%

United Kingdom	763,437	8%	1,803,723	18%
Italy	427,219	5%	108,107	1%
United States of America	415,247	4%	0	0%
China	222,873	2%	480,261	5%

Others	187,650	2%	66,376	1%
	9,428,349	100%	9,799,777	100%

At the end of the reporting period, approximately:

33.6% (2013: 35.6%) of the Group's trade receivables were due from major customers who are multi-industry conglomerates located in Sweden, United Kingdom and Malaysia.

13.4% (2013: 13.0%) of the Group's trade receivables were due from a related party.

99.2% (2013: 99.7%) of the Company's other receivables were due from subsidiaries.

Financial assets that are neither past due nor impaired

Information regarding trade and other receivables that are neither past due nor impaired is disclosed in Note 15 to the financial statements. Deposits with licensed banks and other financial institutions that are neither past due nor impaired are placed with or entered into with reputable financial institutions with high credit ratings and no history of default.

Financial assets that are past due but not impaired

Information regarding financial assets that are past due but not impaired is disclosed in Note 15 to the financial statements.

(ii) Liquidity and cash flow risk

The Group and the Company actively manage their debt maturity profile, operating cash flows and the availability of funding so as to ensure that all operating, investing and financing needs are met. In liquidity risk management strategy, the Group measures and forecasts its cash commitments and maintains a level of cash and cash equivalents deemed adequate to finance the Group's activities. In addition, the Group strives to maintain available banking facilities at a reasonable level to meet its business needs.

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates.

The Group's income and operating cash flows are substantially independent of changes in market interest rates. Interest rate exposure arising from the Group's borrowings is managed through the use of fixed and floating rates debts. The Group monitors the interest rates on borrowings closely to ensure that the borrowings are maintained at favourable rates. The Group does not use derivative financial instruments to hedge this risk.

31 March 2014

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)
(iii) Interest rate risk (Cont'd)
Sensitivity analysis for interest rate risk

As at 31 March 2014, if interest rates at the date had been 50 basis points lower with all other variables held constant, post-tax loss for the financial year would have been RM18,632 (2013: RM26,098) lower, arising mainly as a result of lower interest expense on variable borrowings. If interest rates had been 50 basis points higher, with all other variables held constant, post-tax loss would have been RM18,632 (2013: RM26,098) higher, arising mainly as a result of higher interest expense on variable borrowings. Profit is more sensitive to interest rate decreases than increases because of borrowings with capped interest rates. The sensitivity is lower in 2014 than in 2013 because of a decrease in outstanding borrowings that has occurred. The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

The following tables set out the carrying amounts, the weighted average effective interest rates as at the end of the reporting period and the remaining maturities of the Group's financial instruments that are exposed to interest rate risk:

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)

(iv) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group also hold cash and cash equivalents denominated in foreign currencies for working capital purposes. At the end of the reporting period, such foreign currency balances in United States Dollar, Euro and Chinese Renminbi amounted to RM823,162 (2013: RM679,103) for the Group.

Transactional currency exposures arise from sales and purchases that are denominated in currency other than Ringgit Malaysia. The currency giving rise to this risk is primarily United States Dollar.

During the financial year, the Group obtained a foreign currency forward facility with a bank to manage exposures to currency risk for receivables which are denominated in a currency other than the functional currency of the Group. However, there was no foreign currency forward contract outstanding as at 31 March 2014.

Sensitivity analysis for foreign currency risk

The following table demonstrates the sensitivity of the Group's profit/(loss) net of tax to reasonable possible change in the United States Dollar, Euro and Chinese Renminbi exchange rate against the respective functional currency of the Group entities, with all other variables held constant.

		Group

41. EVENT SUBSEQUENT TO THE END OF THE REPORTING PERIOD

Subsequent to the financial year, a wholly owned subsidiary of the Company, Emico Asia Sdn. Bhd. had acquired 42,497 ordinary share of USD1 each, representing 100% of the entire paid up share capital of the newly incorporated company, Emico Co. Ltd in Guangdong, China.

42. SUPPLEMENTARY INFORMATION ON REALISED AND UNREALISED LOSSES

NOTES ON APPOINTMENT OF PROXY

1. A proxy may but need not be a member of the Company and the provisions of the Section 149(1) (b) of the Companies Act, 1965 shall not apply to the Company.
2. For a proxy to be valid, the Proxy Form duly completed must be deposited at the Registered Office of the Company, 51-21-A Menara BHL Bank, Jalan Sultan Ahmad Shah, 10050 Penang not less than forty-eight (48) hours before the time appointed for holding the meeting.
3. A member shall be entitled to appoint one (1) or more proxies to attend and vote instead of him at the same meeting and where a member appoints two (2) or more proxies to vote at the same meeting, such appointment shall be invalid unless he specify the proportion of his shareholding to be represented by each proxy.
4. Where a member is an Exempt Authorised Nominee which holds ordinary shares of the Company for multiple beneficial owners in one securities account ("omnibus account"), there is no limit to the number of proxies it may appoint in respect of each omnibus account it holds.
5. In the case of a corporate members, the Proxy Form must be executed under the corporation's common seal or under the hand of an officer or attorney duly authorised.

EXPLANATORY NOTE ON ORDINARY BUSINESS

6. Agenda 1 is meant for discussion only as the provision of Section 169(1) of the Companies Act, 1965 does not require a formal approval of the shareholders of the Company and hence, Agenda 1 is not put forward for voting.

EXPLANATORY NOTES ON SPECIAL BUSINESS

7. The proposed Resolution 6, if passed, will give the Directors of the Company authority to issue shares in the Company up to an amount not exceeding 10% of the total issued capital of the Company for the time being for such purposes as the Directors consider would be in the best interest of the Company. This authority, unless revoked or varied by the shareholders of the Company in general meeting will expire at the conclusion of the next Annual General Meeting.

The general mandate for issue of shares is a renewal. As at the date of notice of the meeting, no shares has been issued pursuant to the general mandate granted at the last Annual General Meeting of the Company and of which, it will lapse at the conclusion of the Twenty-Second Annual General Meeting of the Company to be held on 25 September 2014.

The general mandate for issue of shares will provide flexibility to the Company for any possible fund raising activities, including but not limited to further placing of shares for the purpose of funding future investment, working capital and/or acquisition.

8. The proposed Resolutions 7 to 10, if passed, will enable the Company and/or its subsidiaries to enter into recurrent transactions involving the interests of related parties, which are of a revenue or trading nature and necessary for the Group's day-to-day operations, subject to the transactions being carried out in the ordinary course of business and on terms not to the detriment of minority shareholders of the Company, particulars of which are disclosed in the Circular to Shareholders dated 3 September 2014 which have been dispatched together with the Company's Annual Report.
9. The proposed Resolutions 11 and 12, if passed, will allow the independent directors to be retained and continue to act as independent directors to fulfill the requirements of paragraph 3.04 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad and to be in line with the recommendations 3.2 and 3.3 of the Malaysian Code of Corporate Governance 2012. The details of justifications are set out in Page 24 of the Company's 2014 Annual Report.
10. Annual Report
The Annual Report is in CD-ROM format. Printed copy of the Annual Report shall be provided to the shareholder upon request within four (4) market days from the date of receipt of the verbal or written request. The Annual Report can also be downloaded from the Company's website at www.emico.com.my.
